

TxDOT/HAS Dimond Knoll Screening Project – October 11 - 12, 2013
Bulletin #27

A faithful crew were out at the screening site again on Friday and Saturday 10 – 11 October, 2013. Saturday was a humid, overcast day, with a few drops of welcome rain. Pile 2 is still the focus of the activities at the moment and we continued to make great inroads into its elimination. Just another couple of weeks and we should have it beaten!

Tom Williams, Chance and Charles Zipprian, and Jim Horner get to work. Pile 2 is in the background

Tom Williams brought the Dimond Knoll billboards that he has created for us. They will be on display at the next HAS meeting on 17th October, 2013. Way to go Tom !

Jim Horner proudly shows the point that he found

Dr. Barrett moves the screened dirt away from Pile 2. He just loves driving that tractor!

A display of some of the artifacts found on Saturday 12th October, 2013
