

TxDOT/HAS Dimond Knoll Screening Project – April 13, 2013
Bulletin #5

Some of the artifacts found in the screens on Friday, April 12. Points and stone tools above the ruler, pottery below the ruler.

Not just our PI ... Dr. Jason is also our champion dirt tosser!

Stone tools and points screened on Saturday April 13

Lenore Psencik, Charlie Aulbach and Jason Barrett found most of the artifacts in their screen on Friday including the nice point Charlie is holding.

The crew on Saturday – working hard!

Hard at work identifying artifacts during a weekly Lab session Monday night, April 15.

Don't be shy!!! If you'd like to join us for this screening project, just email me at lindagorski@cs.com and I'll send you directions to the site. This is a terrific project ... we are all learning so much!!!
